- Interior Demolition**
- Demolition of Structure**
- Renovation/Alteration**

### **Verification is acceptable by completion of item 1 or 2.**

1. As applicant and owner or agent of the owner, I acknowledge that an asbestos survey has been completed by a person licensed to perform said survey and in accordance with the referenced law for the areas being renovated or demolished at the project located at:

Address: \_\_\_\_\_

TDH License No. \_\_\_\_\_ Company Name: \_\_\_\_\_

\_\_\_\_\_  
Name (Please Print)

\_\_\_\_\_  
Signature

\_\_\_\_\_  
Date

### **Engineer or Architect only!**

2. I have reviewed the material safety data sheets for the materials used in the original construction, the subsequent renovations or alterations of all parts of the building affected by the planned renovations or demolition, and any asbestos surveys of the building previously conducted and in my professional opinion, all parts of the building affected by the planned renovation or demolition do not contain asbestos at the project located at:

Address: \_\_\_\_\_

\_\_\_\_\_  
Name of Engineer or Architect (Please Print)

\_\_\_\_\_  
Signature

License number, Embossed seal, Signature & date  
Registered Architect or Professional Engineer

**Office Use Only**

**Permits issued after January 1, 2002**

**Application: Public or commercial buildings and residential larger than four-plex**

## **ASBESTOS SURVEY VERIFICATION**

On September 1, 2001, Senate Bill 509 was passed into law, affecting permits issued on or after January 1, 2002. This Bill requires municipalities to verify that an asbestos survey has been conducted prior to issuing renovation or demolition permits for public or commercial buildings. This survey shall be in accordance with the Texas Asbestos Health Protection Rules (hereafter referred to as TAHPR) and the National Emission Standards for Hazardous Air Pollutants (hereafter referred to as NESHAP). For this purpose, a commercial building is defined as a non-residential structure or apartment building (greater than four dwelling units). A public building would include schools, churches, and government buildings (federal, state, county, and local).

Therefore, any permit issued for demolition or renovation of a public or commercial building, as defined herein, shall not be issued until verification that an asbestos survey has been conducted in accordance with the TAHPR and NESHAP.

Verification shall be by means of the attached City of Quinlan Asbestos Survey Certification form. This form shall be completed and signed by the building owner or his agent (applicant) prior to the issuance of any permit for any demolition work or any renovation work performed on an existing structure meeting the definition of a commercial or public building. The signed form shall become a part of the permit, and shall be kept on file with the permit and all associated documents.

Information regarding asbestos survey providers, as well as other information regarding compliance with Senate Bill 509 – Implementing Requirements to Verify Asbestos Surveys - may be obtained through the Texas Department of Health's Asbestos Program website at: [www.dshs.state.tx.us/asbestos](http://www.dshs.state.tx.us/asbestos).

Contact the DSHS office for assistance at 512-834-6773 or 800-572-5548

**Pursuant to Senate Bill 509 of the 77th Legislature of the State of Texas, the applicant, owner or owner's agent must certify that the building/project is in compliance with all aspects of the Texas Asbestos Health Protection Rules (TAHPR) and the National Emission Standards for Hazardous Air Pollutants (NESHAP) for the area(s) being altered, renovated and/or demolished.**
